

**Product information**

Water borne silicone free polishing compound designed to quickly and permanently remove sanding scratches from grit P1500 and finer. Optimised for fresh clear-and top coats. To remove holograms on dark colours use Mirka Polarshine 5 with black foam pad as second step.

Product advantages

- Premium polish compound optimised to work in combination with Mirka foam pads.
- Silicone free

**Surfaces**

- Clear coats
- Top coats

Polishing machine

- Rotating 800 – 1500 rpm
- Random orbital polisher 6000-8000 rpm

Polishing pad

- Yellow waffle foam pad
- Yellow foam pad
- Yellow lambswool Pro

Product properties

Speed: 

Polish, gloss: 

Work instruction

1. Shake or stir polishing compound before use
2. Do not use too much compound at a time. Use a small amount which is consumed on a focused area - less messing and clean up!
3. Clean thoroughly before and after polishing
4. Work focused on an area of 40x40 cm at a time
5. Polish until a scratch free surface is achieved
6. Keep the pad clean, a dirty pad causes deep swirls and scratches

Technical specifications

Density: 1,1-1,2 kg/l
 Viscosity: > 20,5 Pas
 Colour: White
 pH: 7 - 9

Storage recommendations

Recommended storage temperature:
 5° - 35° C / 41° - 95° F
 Keep from freezing
